## **DETAILED ACTION**

### ***Summary***

Receipt of IDS filed on 5/26/05 is acknowledged. Claims 1-6 are pending and rejected. Receipt of Applicant's executed oath filed on 4/11/06 is acknowledged.

## **NEW REJECTIONS**

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-6 are rejected under 35 U.S.C. 101 because the claimed invention lacks patentable utility. Applicant claims multiple inventions in instant claim 1. Applicant cannot claim more than a single invention in a claim. Suggested groupings include:

- i) a composition comprising combination of the substances pseudoephedrine sulphate and domperidone;
- ii) the manufacture of medicine or
- iii) the method of treating snoring.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1615

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1-6 provides for the use of a combination of substances, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced. Currently claim 1 is confusing and indefinite and recites "use of a combination" what use? It is unclear whether the Applicant is claiming i) a composition of a combination of the substances pseudoephedrine sulphate and domperidone, ii) the manufacture of a medicine, or iii) the method of treating snoring.

Claims 1-6 rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).
